

WHO WE ARE

Pedemontana Sociale, established in January 2008, is a agency consortium with public legal character for the management of the social services.

It is composed of the five municipalities of the Union Pedemontana of Parma, that is to say, Collecchio, Felino, Montechiarugolo, Sala Baganza and Traversetolo. It has a strong and coherent interaction with the Health Agency USL and with the local social and health district.

It wants to offer

- **QUALITY** in the supplied services and a better rationalisation in the costs with a more organic approach to the individual and familiar problems, through all the resources of the territory;
- **INTEGRATION** of social and health problems;
- **COHERENT PRESENCE** on the territories of the 5 municipalities;
- **GOVERNANCE** expressed and shared directly from the 5 municipalities.

It follows the organisation and the implementation of health and social services with a specific focus on the dignity of people, flexibility and personalisation of the intervention.

The Assembly of Associates, composed of the mayors of the five municipalities, has the main tasks to define guidelines, to control the coherent management of the Agency and to appoint the member of the Executive Board which is the institution with management and strategic responsibilities.
